

WebDrive 12.10.4082 Installation Instructions - CWRU Software Center

Check For The Installer Window Under This Browser Window

Please follow the illustrated instructions below to install WebDrive 12.

PLEASE NOTE: These instructions are for new installations only. If you already have an earlier version of WebDrive installed, you will see a streamlined version of the installer that has fewer and different screens from what is shown below. Existing installations also will not need to type in an activation code.

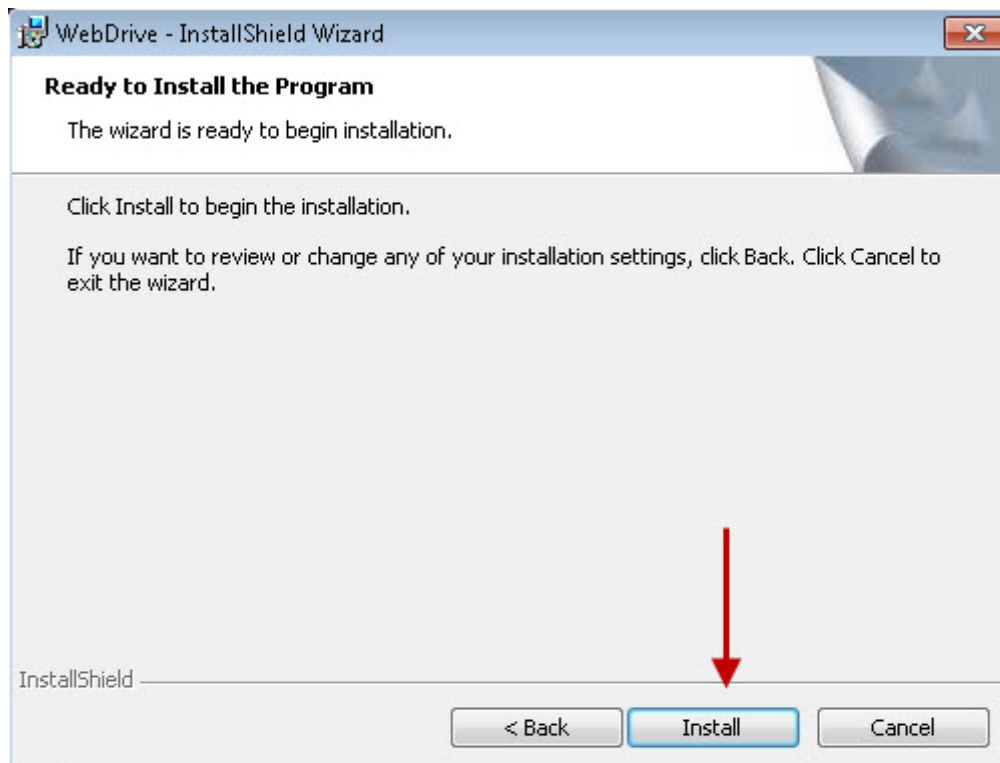

License Agreement. Please accept the license agreement and press "Next >" to continue.

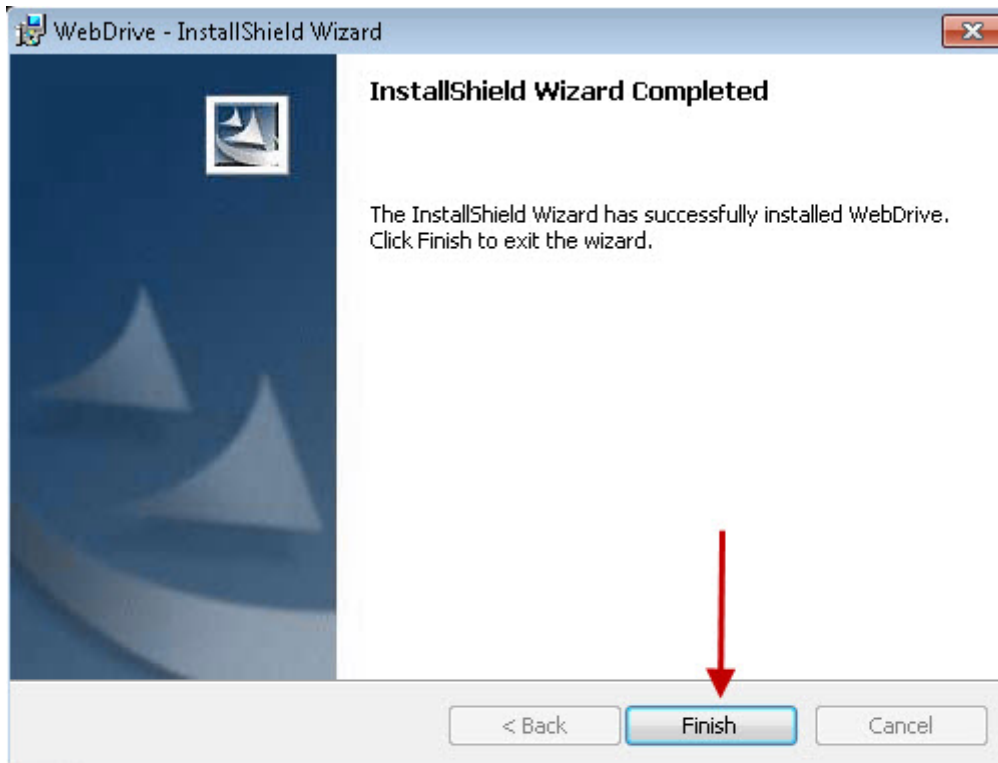

You may change the destination folder or keep the default. Press "Next >" to continue.

The installer is ready to begin installation. Press "Install" to start the installation process.

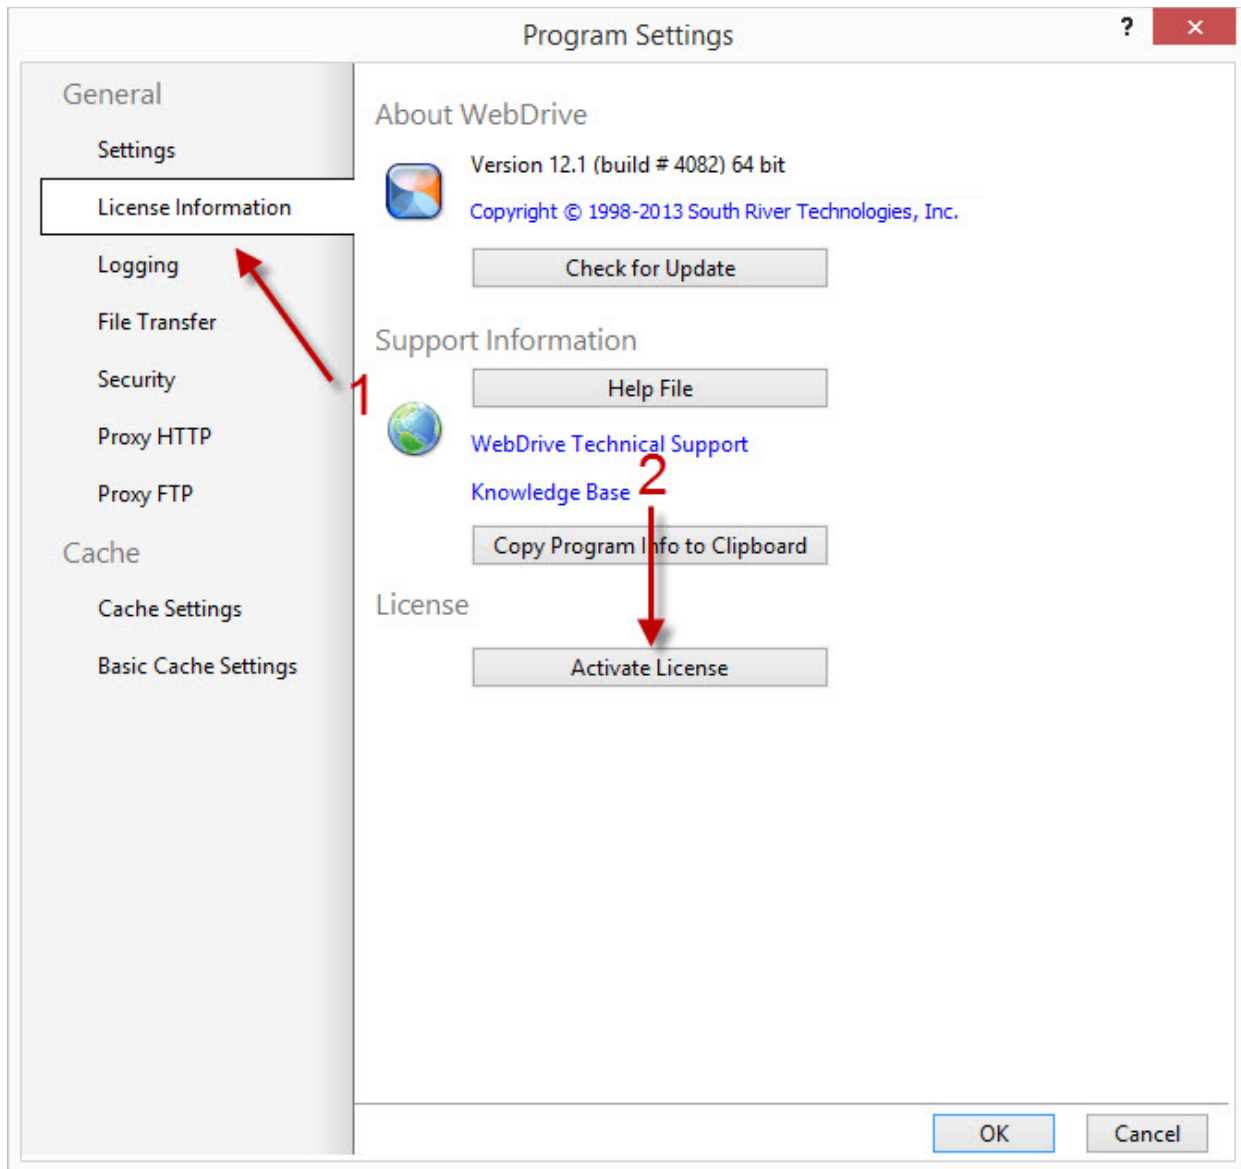

Installation in progress. Please wait...

Installation is complete. Press "Finish" to exit the installer.

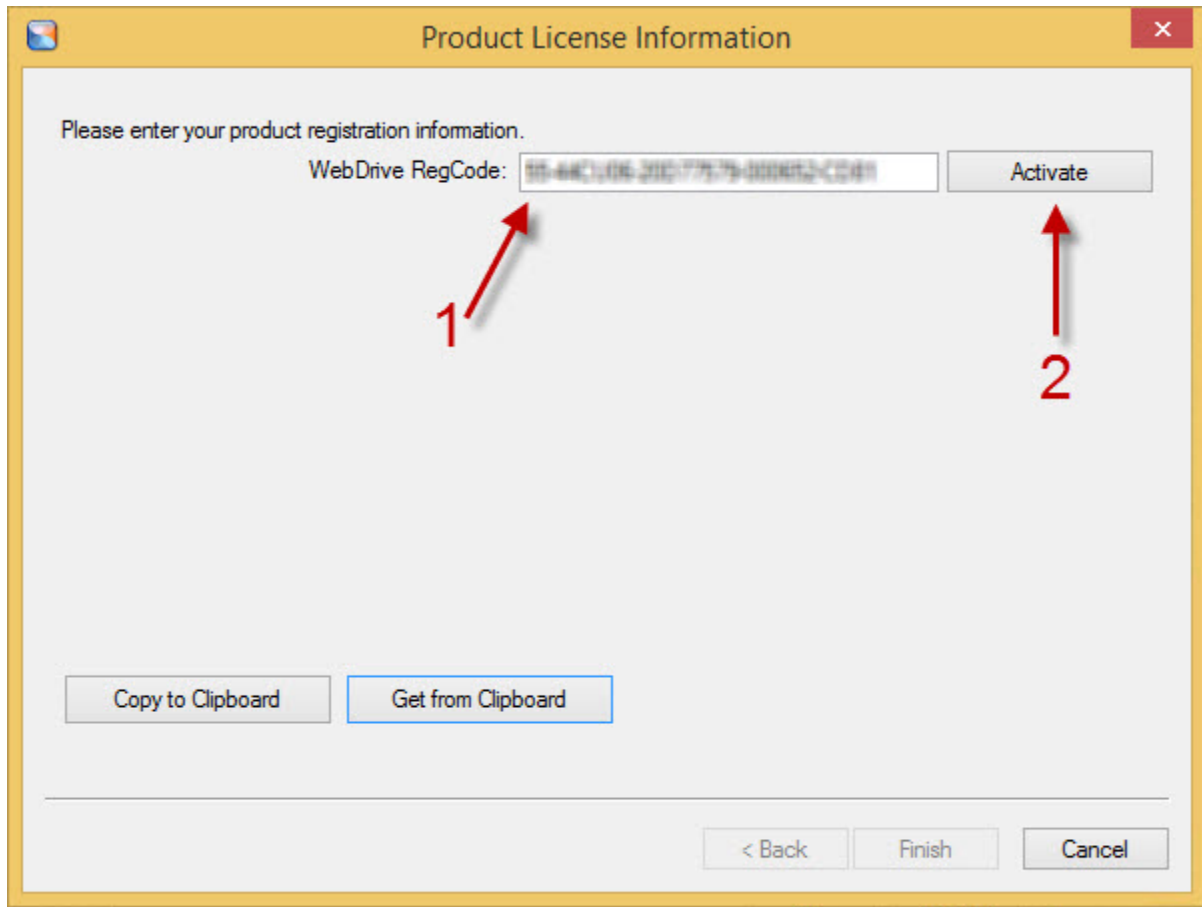

WebDrive will need activation the first time it is run.
To activate, click on App Settings.

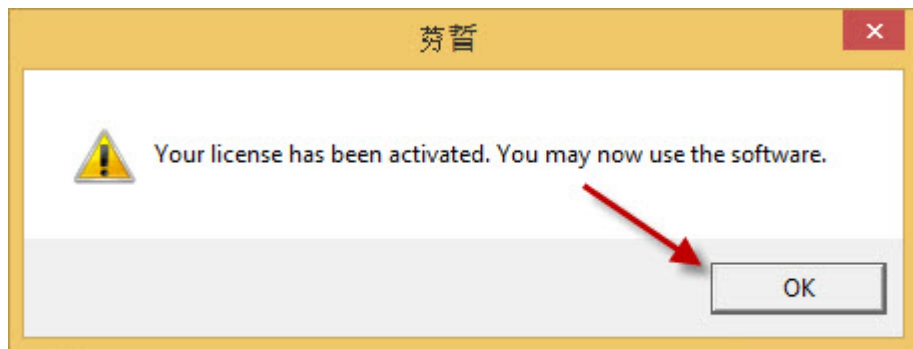

Click on the "License Information" tab and then click on the "Activate License" button.

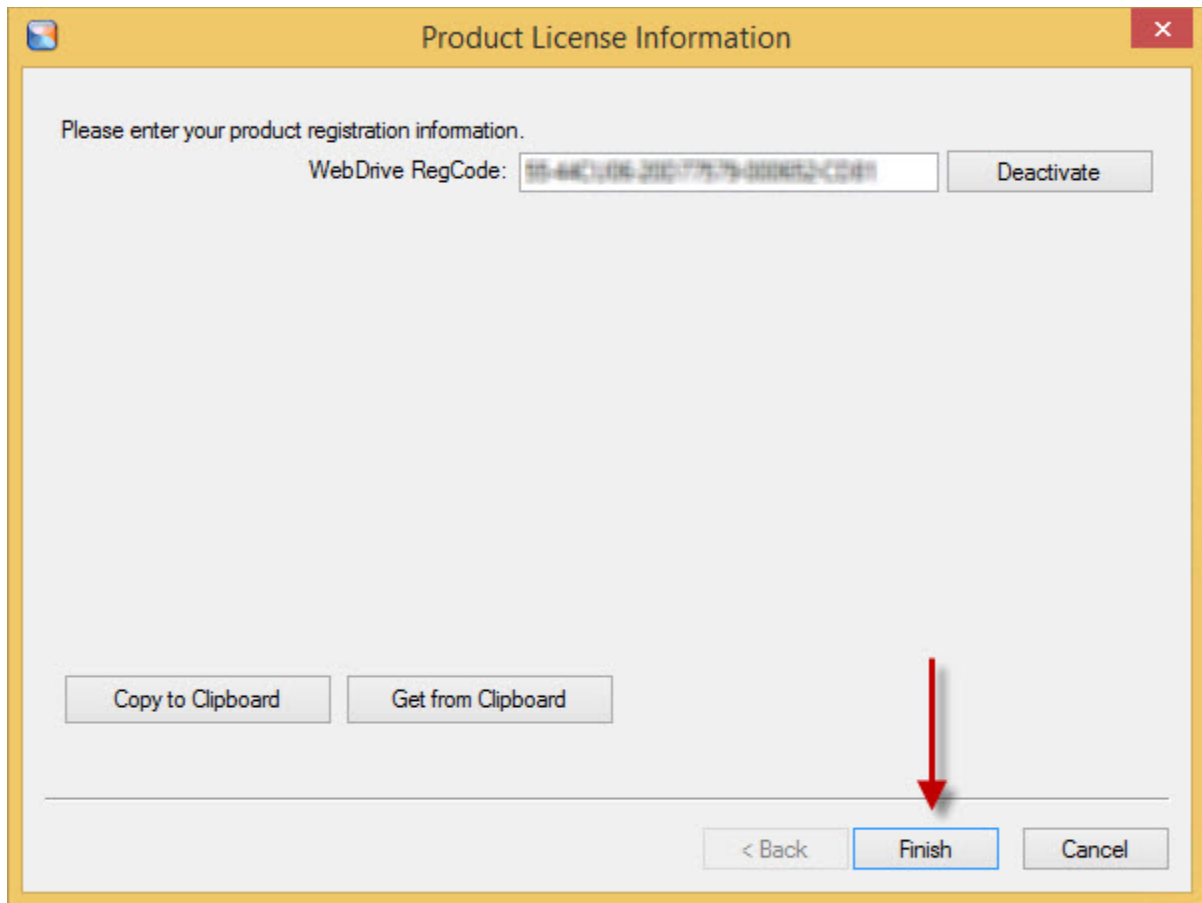

Click on the "Activate License" button.

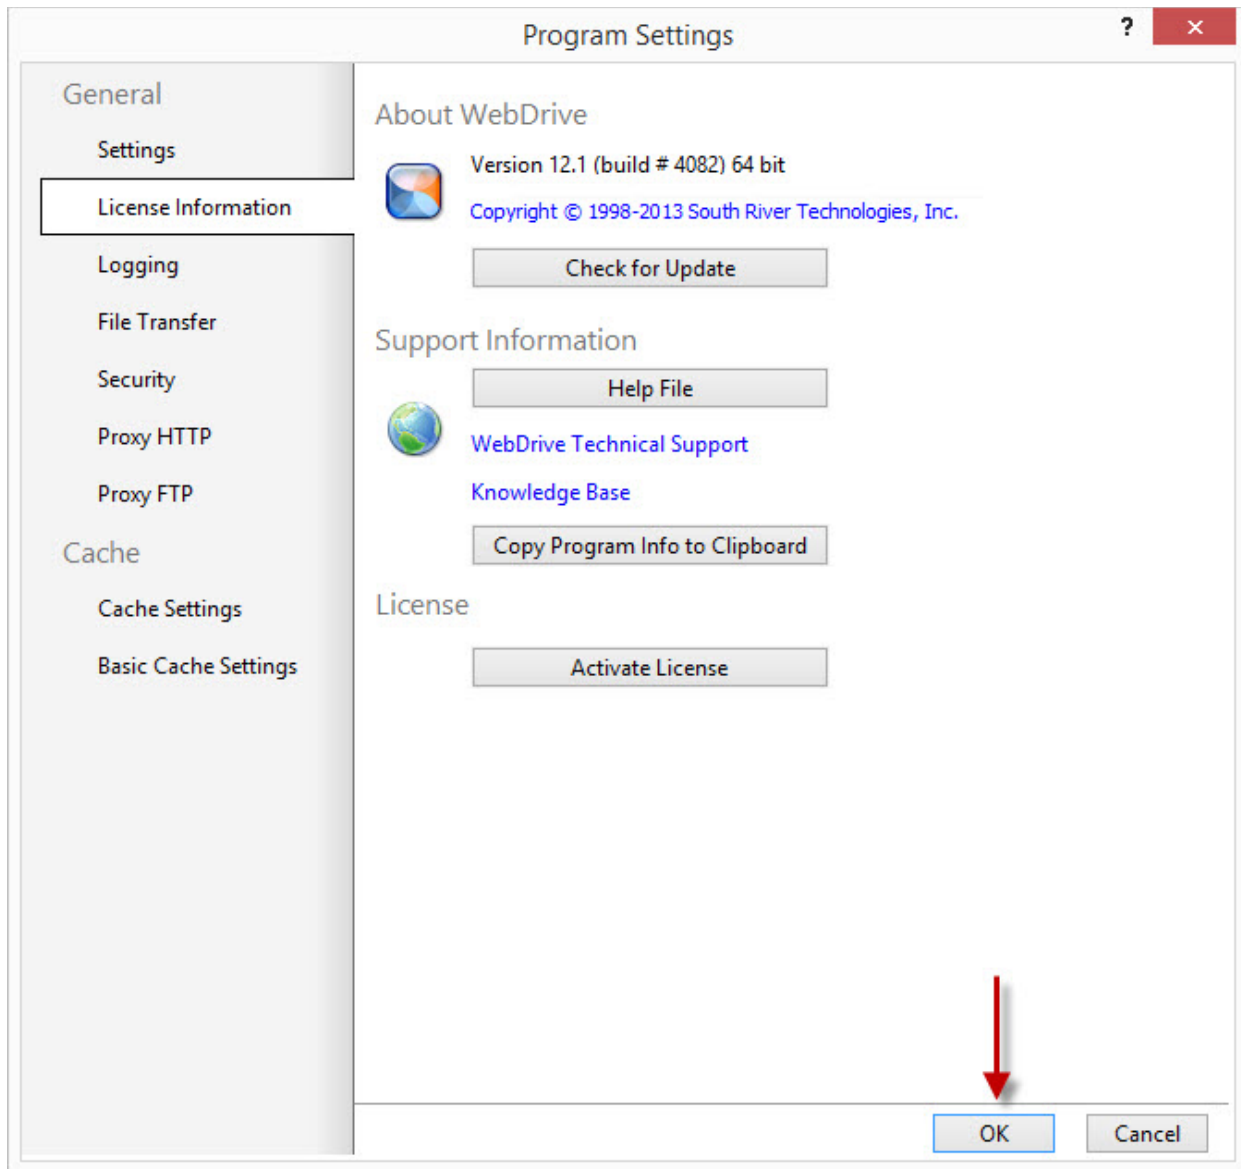

Enter the activation code that was emailed to you from the Software Center into the “WebDrive RegCode” field as shown and then click on “Activate”.

Activation was successful, click on “OK” to continue.

Click on "Finish" to continue.

Click on "OK" to exit Program Settings. WebDrive is now ready for use.

For help with installation, please call the Help Desk at 216-368-HELP
